Technical Data Sheet- Leather Finishing Products

Product Code: DM-1114

DESCRIPTION

DM-1114 is a medium soft, inherently dull NMP free high performance aliphatic polyurethane dispersion.

APPLICATIONS

- Intermediate coats for leather and leather topcoat applications where good flexibility, embossing print retention and abrasion resistance is required.

FEATURES

- Soft touch film
- Inherently dull- medium gloss
- Good abrasion and flexing resistance
- Good foaming properties

- **PROPERTIES**

Percent Solids, weight	34
Specific Gravity, 25°C	1.04
pH, typical value	8.8
Viscosity, cPs	250

STORAGE

Store in a cool, dry place, preferably less than 80°, to ensure a useful shelf life of eighteen months. Protect from freezing.

Quaker Color manufactures all its products under carefully controlled conditions to meet rigid specifications. The values given in this publication are typical values intended as guidelines for the use of the products, they are not specifications. It is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Should you require the actual specifications currently enforced on specific products contact your Quaker Color representative for the appropriate information.
