

# RESPONSIBLE DISTRIBUTION WORKS

Partner with Confidence – Work with an  
ACD Responsible Distribution-Verified Expert

## RESPONSIBLE DISTRIBUTION – SETTING THE STANDARD FOR CHEMICAL DISTRIBUTION EXCELLENCE

As a member of the **Alliance for Chemical Distribution (ACD)**, our company demonstrates the expertise, stewardship, and professionalism to achieve the highest in quality, safety, sustainability, and performance through ACD Responsible Distribution™. Established in 1991, Responsible Distribution is a trusted and comprehensive set of environmental, health, safety, security, and sustainability standards that demands continuous improvement in every phase of chemical storage, handling, transportation, and disposal.

## DEMONSTRATING BEST-IN-CLASS PERFORMANCE AND SAFETY

Working with an **ACD Responsible Distribution-verified business** means working with a company that continuously demonstrates its commitment to:

- Lower occurrence of safety and environmental incidents;
- Continuous improvement in sustainability through socially responsible and environmentally friendly business practices;
- Increased consistency and quality of products;
- Transparent communication with local communities and stakeholders; and
- Strict adherence to regulatory requirements.

## WHY WORK WITH US?

Learn more about Responsible Distribution at [www.acd-chem.com](http://www.acd-chem.com).

As a leader in the chemical distribution industry, we are committed to our shared responsibility to protect the well-being, safety, and security of our employees and the communities in which we live and work. We ensure consistent, high-quality products, and innovate to grow in a sustainable way, all while staying at the forefront of complex regulations and requirements. For our customers, working with experts in chemical distribution means increased consistency, efficiency, and cost-effectiveness.
